1. Wall - E (<http://www.imdb.com/title/tt0910970/>)

This movie is about the humans abandoning Earth because it is full of garbage. Wall - e, is the robot that is left to clean the garbage. In the last part of this movie, the humans came back to earth with the help of Wall - e and Eve, the robot that Wall - e met. The humans planted more trees and restored the beauty of the Earth. In the past, before I watched this movie, I am always destroying plants everywhere but now, I learned my lesson: take care of plants.

2. Life of Pi (<http://www.imdb.com/title/tt0454876/>)

In this story, there was a boy named Pi that was stranded in a small boat with a tiger. Pi never lost his hope in looking for a place to live. One day, his wish came true. This movie's message for me is: "Never lose hope".

3. 3 Idiots (<http://www.imdb.com/title/tt1187043/>)

In this movie, there were three friends that went through many circumstances and problems. Even though they had those kind of problems, they are still friends and they are not giving up on their ambitions. This movie inspired me to: "No matter what the problem is, never give up", or in other words, "Keep Holding On".

4. Like Stars On Earth (<http://www.imdb.com/title/tt0986264/>)

An eight year old boy named Ishaan is thought to be lazy and a troublemaker, until the new art teacher has the patience and compassion to discover the real problem behind his struggles in school. Ishaan did his best to get high grades with the help of his art teacher. This movie's message to me is "Always do your best".

5. Mr. Peabody and Sherman (<http://www.imdb.com/title/tt0864835/>)

Mr. Peabody, the dog dad, and his adopted son, Sherman, travels back in time for Sherman to learn more about history, but when Penny, Sherman's classmate, defaced the time traveling machine called WABAC and time-travelled herself. In the end, Mr. Peabody, Sherman, and Penny managed to get everything back to normal. This movie told me that we should obey our parents but there is a time when we need to disobey them.
